“

bigmoose, not only do they do everything with such big smiles on the faces of all their team members but nothing is ever too much trouble. no matter what kind of event I have used them for, they have been accommodating, willing to suggest ideas and have designed spectacular menus. they have been able to adapt to all manner of dietary requests including complex allergies but always appetising flavoursome food.

the quality and presentation of the food and can do attitude is absolutely first class. I have absolutely full confidence in them and know that I am given a five star service every time, whether for a small group of 8 or a spectacular spread for 300. you will not regret giving them your business as not only is it appreciated, the wider great work they do supports so many people when they need it the most.

they truly live by the mantra,
leaving the world better than they found it!
